**Which bones are part of the forefoot? (Select all that apply)**

- Metatarsals
- Phalanges
- Calcaneus
- Talus

**What are the clinical implications of a fracture in the calcaneus?**

**Describe the process of ossification in the bones of the foot.**

**Which joint allows for inversion and eversion of the foot?**

- Ankle joint
- Subtalar joint
- Metatarsophalangeal joint

- Transverse tarsal joint

**Which bone articulates with the tibia and fibula to form the ankle joint?**

- Navicular  
 Talus  
 Cuboid  
 Calcaneus

**What is the primary function of the foot's arch?**

- Flexibility  
 Shock absorption  
 Stability  
 Aesthetic appearance

**Explain the role of the metatarsals in foot function.**

**Which bone is located directly anterior to the talus?**

- Cuboid  
 Navicular  
 Calcaneus  
 Medio cuneiform

**Which region of the foot contains the talus and calcaneus?**

- Hindfoot  
 Midfoot  
 Forefoot  
 Arch

**How many metatarsal bones are in the human foot?**

- 3
- 4
- 5
- 6

**Which of the following are functions of the foot bones? (Select all that apply)**

- Provide structural support
- Facilitate hand movement
- Absorb impact
- Protect internal organs

**What diagnostic techniques are commonly used to assess foot bone injuries?**

**How does the structure of the foot contribute to its ability to absorb shock?**

**Which bones are part of the midfoot? (Select all that apply)**

- Navicular
- Talus
- Cuboid
- Cuneiforms

**Which of the following conditions can affect the bones of the foot? (Select all that apply)**

- Fractures
- Arthritis
- Plantar fasciitis
- tendonitis

**Which bones are involved in forming the transverse tarsal joint? (Select all that apply)**

- Talus
- Calcaneus
- Navicular
- Cuboid

**Which bone is known as the heel bone?**

- Talus
- Calcaneus
- Navicular
- Cuboid

**Discuss the importance of the subtalar joint in foot movement.**

**Which bones articulate at the subtalar joint? (Select all that apply)**

- Talus
- Calcaneus
- Navicular
- Cuboid

**Which of the following bones is part of the forefoot?**

- Talus
- Calcaneus
- Metatarsals
- Navicular
