**Explain how deforestation contributes to climate change.**

**Deforestation increases carbon emissions as trees that absorb CO<sub>2</sub> are removed, contributing to global warming.**

**What is REDD+?**

- A. A type of tree
- B. A deforestation technique
- C. An international conservation initiative ✓**
- D. A logging company

**What is the main environmental impact of deforestation?**

- A. Increased biodiversity
- B. Soil enrichment
- C. Climate change ✓**
- D. Improved air quality

**What is the role of primary forests?**

- A. They are used for timber production
- B. They are untouched and develop naturally ✓**
- C. They are used for agriculture
- D. They are urban forests

**What are some economic impacts of deforestation? (Select all that apply)**

- A. Loss of timber resources ✓**
- B. Decreased agricultural land

**C. Impact on local livelihoods ✓**

D. Increase in eco-tourism

**Which region is most affected by deforestation?**

A. Antarctica

**B. The Amazon ✓**

C. Europe

D. The Arctic

**Which of the following are causes of deforestation? (Select all that apply)****A. Logging ✓****B. Infrastructure development ✓**

C. Wildlife conservation

**D. Mining ✓****Describe the impact of deforestation on indigenous communities.**

**Deforestation can lead to loss of habitat, cultural heritage, and resources vital for the survival of indigenous communities.**

**What are the benefits of sustainable forestry practices?**

**Sustainable forestry ensures long-term resource availability, maintains biodiversity, and supports ecological balance.**

**Discuss the role of reforestation in mitigating the effects of deforestation.**

**Reforestation helps restore ecosystems, sequester carbon, and improve biodiversity, mitigating deforestation impacts.**

**How does deforestation affect the water cycle in affected regions?**

**Deforestation disrupts rainfall patterns, reduces water retention, and can lead to altered river flows and droughts.**

**What strategies can be implemented to balance economic development and forest conservation?**

**Strategies include promoting sustainable agriculture, enforcing environmental laws, and investing in eco-friendly technologies.**

**Which international agreements focus on reducing deforestation? (Select all that apply)**

- A. Kyoto Protocol
- B. Paris Agreement ✓**
- C. REDD+ ✓**
- D. Montreal Protocol

**Which of the following are methods to combat deforestation? (Select all that apply)**

- A. Reforestation ✓**
- B. Clear-cutting
- C. Protected areas ✓**
- D. Community-based management ✓**

**Which practice is considered a solution to deforestation?**

- A. Clear-cutting
- B. Slash-and-burn agriculture
- C. Sustainable forestry ✓**
- D. Urban sprawl

**What is deforestation?**

- A. Planting new trees
- B. Clearing or thinning forests ✓**
- C. Protect wildlife
- D. Building new roads

**Which of the following is a direct consequence of deforestation on soil?**

- A. Fertility increase
- B. Soil erosion ✓**
- C. Water retention
- D. Soil compaction

**Which areas are considered deforestation hotspots? (Select all that apply)**

- A. The Amazon ✓**
- B. Central Africa ✓**
- C. Western Europe
- D. Southeast Asia ✓**

**Which of the following is a primary cause of deforestation?**

- A. Urban gardening
- B. Agricultural expansion ✓**
- C. Wildlife conservation
- D. Solar panel installation

**What are some effects of deforestation on the environment? (Select all that apply)**

- A. Loss of biodiversity ✓**
- B. Climate change ✓**
- C. Increased rainfall
- D. Soil erosion ✓**
