Explain how deforestation contributes to climate change.

What is REDD+?

- A type of tree
- A deforestation technique
- An international conservation initiative
- A logging company

What is the main environmental impact of deforestation?

- Increased biodiversity
- Soil enrichment
- Climate change
- Improved air quality

What is the role of primary forests?

- They are used for timber production
- They are untouched and develop naturally
- They are used for agriculture
- They are urban forests

What are some economic impacts of deforestation? (Select all that apply)

- Loss of timber resources
- Decreased agricultural land
- Impact on local livelihoods
- Increase in eco-tourism

Which region is most affected by deforestation?

- Antarctica
- The Amazon
- Europe
- The Arctic

Which of the following are causes of deforestation? (Select all that apply)

- Logging
- Infrastructure development
- Wildlife conservation
- Mining

Describe the impact of deforestation on indigenous communities.

What are the benefits of sustainable forestry practices?

Discuss the role of reforestation in mitigating the effects of deforestation.

How does deforestation affect the water cycle in affected regions?

What strategies can be implemented to balance economic development and forest conservation?

Which international agreements focus on reducing deforestation? (Select all that apply)

- Kyoto Protocol
- Paris Agreement
- REDD+
- Montreal Protocol

Which of the following are methods to combat deforestation? (Select all that apply)

- Reforestation
- Clear-cutting
- Protected areas
- Community-based management

Which practice is considered a solution to deforestation?

- Clear-cutting
- Slash-and-burn agriculture
- Sustainable forestry
- Urban sprawl

What is deforestation?

- Planting new trees
- Clearing or thinning forests
- Protect wildlife
- Building new roads

Which of the following is a direct consequence of deforestation on soil?

- Fertility increase
- Soil erosion
- Water retention
- Soil compaction

Which areas are considered deforestation hotspots? (Select all that apply)

- The Amazon
- Central Africa
- Western Europe
- Southeast Asia

Which of the following is a primary cause of deforestation?

- Urban gardening
- Agricultural expansion
- Wildlife conservation
- Solar panel installation

What are some effects of deforestation on the environment? (Select all that apply)

- Loss of biodiversity
- Climate change
- Increased rainfall

Soil erosion
