What is the primary characteristic that defines a desert biome?		
○ High rainfall		
○ Low rainfall		
O Dense vegetation		
○ High humidity		
Which of the following are challenges faced by desert ecosystems? (Select all that apply)		
☐ Water scarcity		
☐ High biodiversity		
☐ Soil erosion		
Overpopulation of species		
What adaptation helps cacti survive in the desert?		
○ Large leaves		
O Deep roots		
○ Water storage in stems		
○ Fast growth		
Which animals are typically found in desert biomes? (Select all that apply)		
☐ Camels		
Penguins		
☐ Fennec foxes		
☐ Polar bears		
What are common sources of water in desert biomes? (Select all that apply)		
Rivers		
Oases		

Create hundreds of practice and test experiences based on the latest learning science.

☐ Rainfall ☐ Glaciers
What is a common behavioral adaptation of desert animals?
<ul><li>Hibernation</li><li>Nocturnal activity</li><li>Migration</li><li>Camouflage</li></ul>
Which soil characteristic is typical of desert biomes?
<ul><li>High organic matter</li><li>Rich in nutrients</li><li>Sandy or rocky</li><li>Clay-rich</li></ul>
Which of the following is a conservation strategy for desert biomes?
<ul><li>Overgrazinging</li><li>Deforestation</li><li>Sustainable land management</li><li>Urbanization</li></ul>
How do desert plants minimize water loss through transpiration?

Describe the role of oases in desert ecosystems.

	/1
Discuss the impact of desertification on local communities and wildlife.	
What strategies can be implemented to conserve water in desert regions	s?
	/
Which of the following is a hot desert?	
○ Gobi	
Sahara	
Antarctic	
Atacama	
Which term describes plants that are adapted to dry conditions?	
Hydrophytes	
○ Mesophytes	
◯ Xerophytes	

Create hundreds of practice and test experiences based on the latest learning science.

Halophytes

What is desertification?			
○ The process of deserts shrinking			
○ The expansion of desert-like conditions			
<ul> <li>The conversion of deserts into forests</li> </ul>			
○ The increase in desert rainfall			
Which of the following are types of deserts? (Select all that apply)			
☐ Hot deserts			
Cold deserts			
Tropical deserts			
☐ Temperate deserts			
What are some effects of human activities on desert biomes? (Select all that apply)			
Desertification			
☐ Increased biodiversity			
☐ Water depletion			
☐ Improved soil fertility			
Explain how temperature fluctuations in deserts affect the organisms living there.			
Explain how temperature fluctuations in deserts affect the organisms living there.			
Explain how temperature fluctuations in deserts affect the organisms living there.			
Explain how temperature fluctuations in deserts affect the organisms living there.			
Explain how temperature fluctuations in deserts affect the organisms living there.			
Explain how temperature fluctuations in deserts affect the organisms living there.			
What are some plant adaptations to desert environments? (Select all that apply)  Thick waxy cuticles Shallow roots			
What are some plant adaptations to desert environments? (Select all that apply)  Thick waxy cuticles Shallow roots Water storage in tissues			
What are some plant adaptations to desert environments? (Select all that apply)  Thick waxy cuticles Shallow roots			

Create hundreds of practice and test experiences based on the latest learning science.

Analyze the importance of protected areas in preserving desert biodiversity.
