Which species is often targeted by poachers for its horn, leading to its endangered status?

- African Elephant
- Blue Whale
- Javan Rhino
- Giant Panda

Which of the following is a critically endangered species?

- African Elephant
- Amur Leopard
- Bald Eagle
- Gray Wolf

Which region is known as a biodiversity hotspot with many endangered species?

- Sahara Desert
- Amazon Rainforest
- Arctic Circle
- Great Plains

Which international treaty aims to ensure that international trade in wild animals and plants does not threaten their survival?

- Kyoto Protocol
- Paris Agreement
- CITES
- Montreal Protocol

What is the conservation status category for species that are at the highest risk of extinction?

- Vulnerable

- Near Threatened
- Endangered
- Critically Endangered

Provide an example of a successful conservation effort and explain why it was effective.

Discuss the importance of genetic diversity in the conservation of endangered species.

What are some challenges faced by conservationists in protecting endangered species?

How do invasive species contribute to the endangerment of native species?

Explain the role of the IUCN Red List in conservation efforts.

Describe how climate change can impact the survival of endangered species.

Which of the following actions can individuals take to help protect endangered species? (Select all that apply)

- Supporting sustainable products
- Volunteering for conservation projects
- Purchasing exotic pets
- Educating others about conservation

Which factors contribute to the decline of marine species? (Select all that apply)

- Overfishing
- Ocean pollution
- Coral reef destruction

- Increased tourism

Which of the following are common causes of species endangerment? (Select all that apply)

- Habitat loss
 Climate change
 Overexploitation
 Abundant food supply

Which species are currently listed as endangered? (Select all that apply)

- Vaquita
 Snow Leopard
 Giant Panda
 Polar Bear

What is the main cause of habitat loss for many endangered species?

- Natural disasters
 Human development
 Predation
 Disease

What are some consequences of species extinction on ecosystems? (Select all that apply)

- Loss of biodiversity
 Disruption of food chains
 Increased ecosystem stability
 Altered habitat structures

What is a key factor in the success of breeding programs for endangered species?

- Large natural habitats
 Genetic diversity
 High population density
 Minimal human interaction

What are some conservation strategies used to protect endangered species? (Select all that apply)

- Establishing wildlife reserves

- Implementin breeding programs
- Increasing hunting quotas
- Enforcing anti-poaching laws

What is the primary organization responsible for assessing the conservation status of species worldwide?

- World Wildlife Fund (WWF)
- International Union for Conservation of Nature (IUCN)
- United Nations Environment Programme (UNEP)
- Greenpeace
