What are some controversies surrounding GMOs? (Select all that apply)

- Environmental impact
- Health concerns
- Improved taste
- Ethical issues

Explain how CRISPR technology is used in the development of GMOs.

Which technique is commonly used in genetic engineering of GMOs?

- Cloning
- CRISPR
- Photosynthesis
- Fermentation

Which regulatory body in the United States is responsible for overseeing the safety of GMOs?

- CDC
- FDA
- NASA
- WHO

What does GMO stand for?

- Genetically Modified Organism
- Genetically Managed Organism
- Genetically Manufactured Organism
- Genetically Mutated Organism

Which of the following is a benefit of GMOs?

- Increased pesticide use
- Improved nutritional content
- Decreased crop yield
- Higher water consumption

Which of the following are regulatory bodies for GMOs in the United States? (Select all that apply)

- FDA
- USDA
- EPA
- CDC

How do GMOs contribute to addressing food security challenges globally?

Describe the process of creating a genetically modified crop.

What are the long-term health concerns associated with consuming GMOs?

What are potential environmental impacts of GMOs? (Select all that apply)

- Increased biodiversity
- Emergence of superweeds
- Reduced soil fertility
- Alter ecosystems

Compare and contrast the regulatory approaches to GMOs in the United States and the European Union.

What is the primary purpose of genetically modifying crops?

- To increase their size
- To improve their taste
- To enhance yield and resistance
- To change their color

Which country requires labeling of GMO products?

- United States
- Canada
- European Union
- Brazil

What is a major concern associated with GMOs?

- Increased biodiversity
- Potential allergenicity
- Enhanced flavor
- Reduced farming costs

Which of the following is a common GMO crop?

- Wheat
- Rice
- Soybeans
- Barley

What are some benefits of GMOs? (Select all that apply)

- Reduced need for pesticides
- Improved resistance to climate change
- Increased allergenicity
- Enhanced yield

Which of the following are techniques used in genetic engineering? (Select all that apply)

- CRISPR
- Gene splicing
- Photosynthesis
- Recombined DNA technology

Discuss the ethical concerns related to the commercialization of GMOs.

Which crops are commonly genetically modified? (Select all that apply)

- Corn
- Soybeans
- Wheat

Cotton
