Discuss the role of climate change in shaping human evolution.

Which theory suggests that modern humans originated in Africa and then dispersed globally?

- Multiregional Hypothesis
- Punctuated Equilibrium
- Parallel Evolution
- Out of Africa Theory

Which epoch is known for the emergence of the Homo genus?

- Miocene
- Pleistocene
- Eocene
- Holocene

Which species is commonly referred to as 'Lucy'?

- Homo sapiens
- Homo neanderthalensis
- Homo erectus
- Australopithecus afarensis

What is the term for the study of human evolution through fossils?

- Archaeology
- Paleoanthropology
- Paleontology
- Anthropology

What is the primary theory that explains the process of evolution?

- Creationism
- Natural Selection
- Catastrophism
- Intelligent Design

What significant change is associated with the evolution of Homo erectus?

- Development of agriculture
- Use of fire
- Domestication of animals
- Increase in brain size

Which of the following are characteristics of Homo sapiens? (Select all that apply)

- Large brain size
- Use of complex tools
- Lack of language skills
- Bipedalism

What are some of the key differences between Homo sapiens and Neanderthals?

Which of the following are considered major milestones in human evolution? (Select all that apply)

- Development of agriculture
- Creation of the wheel
- Emergence of language

- Discovery of fire

Describe the impact of the agricultural revolution on human societies.

Reflect on the ethical implications of studying human evolution.

Explain the significance of bipedalism in human evolution.

What are some methods used to study human evolution? (Select all that apply)

- Radiometric dating
- Astrology
- Fossil analysis
- DNA analysis

Which species are known to have interbred with early Homo sapiens? (Select all that apply)

- Neanderthals
- Denisovans
- Homo habilis
- Australopithecus afarensis

How has the study of DNA contributed to our understanding of human evolution?

Which species is known for being one of the earliest bipedal hominins?

- Homo sapiens
- Homo habilis
- Neanderthals
- Australopithecus afarensis

What factors influenced human migration patterns? (Select all that apply)

- Climate change
- Political boundaries
- Predation by large animals
- Availability of resources

Which hominin species is known for using the first stone tools?

- Homo erectus
- Homo habilis
- Australopithecus africanus
- Homo sapiens

Which of the following are examples of cultural evolution in humans? (Select all that apply)

- Development of art
- Social structures
- Tool-making

Genetic mutations
