- B. 175
- C. 190 ✓**
- D. 200

What is the primary purpose of the IMF?

- A. To provide military support
- B. To promote global economic stability and growth ✓**
- C. To regulate international trade
- D. To manage global environmental policies

Discuss the role of the IMF in the global economic response to the COVID-19 pandemic.

The IMF responded to the COVID-19 pandemic by providing emergency financial support to member countries, enhancing its lending capacity, and coordinating international efforts to ensure liquidity and economic stability.

What are some of the IMF's responses to global challenges?

- A. Pandemic Response ✓**
- B. Digital Currencies Research ✓**
- C. Space Exploration
- D. Global Trade Regulation

Analyze the impact of IMF's conditionality on the economic policies of borrowing countries.

The impact of IMF's conditionality on borrowing countries' economic policies is significant, as it typically requires them to adopt austerity measures, fiscal discipline, and structural reforms aimed at restoring economic stability and growth.

Which of the following are functions of the IMF?

- A. Economic Surveillance ✓**
- B. Military Assistance
- C. Financial Assistance ✓**
- D. Capacity Development ✓**

During which crises did the IMF play a significant role?

- A. Asian Financial Crisis ✓**
- B. European Debt Crisis ✓**

- C. Causing environmental damage
- D. Increasing inequality ✓**

Reflect on the future challenges the IMF might face with the rise of digital currencies and financial technologies.

The rise of digital currencies and financial technologies could challenge the IMF by complicating its role in global monetary policy, necessitating new regulatory frameworks, and potentially undermining the stability of traditional financial systems.

What is the role of the IMF's quota system?

- A. To determine the military strength of a country
- B. To establish the voting power and financial contributions of member countries ✓**
- C. To set environmental policies
- D. To regulate international trade tariffs

Describe how the IMF's quota system affects the decision-making process within the organization.

The IMF's quota system affects decision-making by allocating voting power based on the size of each member's financial contribution, with larger quotas granting more influence over policies and governance.

What are Special Drawing Rights (SDRs), and how do they function within the IMF framework?

Special Drawing Rights (SDRs) are an international reserve asset created by the IMF, which can be allocated to member countries based on their quotas. SDRs can be exchanged among countries for freely usable currencies, providing liquidity and stability in the global economy.

Explain the significance of the Bretton Woods Conference in the establishment of the IMF.

The significance of the Bretton Woods Conference in the establishment of the IMF lies in its role in creating a framework for international economic cooperation, aimed at preventing the economic instability that contributed to the Great Depression and World War II.
