Describe how indigenous languages have influenced the vocabulary of Latin American Spanish. Provide examples.

Indigenous languages have influenced Latin American Spanish by introducing a variety of vocabulary, especially in terms of local plants, animals, and cultural practices. For instance, the word 'chocolate' comes from the Nahuatl word 'xocolatl', and 'coca' is derived from the Quechua language.

What are some idiomatic expressions unique to Latin American Spanish, and what do they mean?

1. 'Echar la casa por la ventana' - to spare no expense; 2. 'No hay mal que por bien no venga' - every cloud has a silver lining; 3. 'Estar en la luna' - to be daydreamy or distracted; 4. 'Dar en el clavo' - to hit the nail on the head; 5. 'Meter la pata' - to make a mistake.

Discuss the historical factors that have contributed to the differences between Latin American Spanish and Spain Spanish.

Key historical factors include the Spanish colonization of the Americas, which introduced Spanish to diverse indigenous languages, resulting in unique regional dialects. Additionally, the evolution of the language in isolation from Spain, along with socio-political changes and migration patterns, has further contributed to the distinct characteristics of Latin American Spanish.

Compare and contrast the use of 'ustedes' and 'vosotros' in Spanish-speaking regions. Why do these differences exist?

'Ustedes' is used in Latin America for both formal and informal situations, while 'vosotros' is used in Spain for informal contexts. The distinction arises from historical and cultural differences in the Spanish-speaking world.

What are some influences on the development of Latin American Spanish? (Select all that apply)

- A. Indigenous languages ✓**
