What steps should be taken if a mole changes in appearance?	
	,
Describe the cultural significance of moles in any one culture of your choice.	
What are the potential risks associated with atypical or dysplastic nevi?	

How does sun exposure contribute to the formation of moles?

What are the characteristics of congenital nevi? (Select all that apply)	
Present at birth	
Develop in adulthood	
☐ May be larger than acquired nevi	
Always lead to melanoma	
What is the most common color of moles?	
○ Red	
○ Blue	
○ Brown	
○ Yellow	
Explain why regular self-examinations of moles are important.	
	//
Which of the following is a characteristic of an atypical mole?	
Symmetrical shape	
Uniform color	
○ Irregular border○ Small size	
Official Size	

Create hundreds of practice and test experiences based on the latest learning science.

What are potential reasons for mole removal? (Select all that apply)

☐ Cosmetic reasons
☐ Medical necessity
☐ Improved hydration
☐ To reduce skin sensitivity
Which of the following are part of the ABCDE rule for mole assessment? (Select all that apply)
☐ Asymmetry
Border
☐ Color
☐ Elasticity
What is the primary cell type that forms moles?
○ Keratinocytes
○ Melanocytes
○ Fibroblasts
○ Langerhans cells
Which type of mole is present at birth?
Which type of mole is present at birth? Acquired Nevi
○ Acquired Nevi
○ Acquired Nevi○ Congenital Nevi
Acquired NeviCongenital NeviAtypical Nevi
Acquired NeviCongenital NeviAtypical Nevi
Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons?
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal Radiation therapy
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal Radiation therapy
 Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal Radiation therapy Dialysis
Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal Radiation therapy Dialysis What are the common methods for mole removal? (Select all that apply)
Acquired Nevi Congenital Nevi Atypical Nevi Junctional Nevi Which method is commonly used for mole removal due to cosmetic reasons? Chemotherapy Laser removal Radiation therapy Dialysis What are the common methods for mole removal? (Select all that apply) Surgical excision

Create hundreds of practice and test experiences based on the latest learning science.

Which factors can influence the development of moles? (Select all that apply)
☐ Genetic factors
☐ Diet
☐ Sun exposure
☐ Stress levels
Which of the following are signs of a potentially cancerous mole? (Select all that apply)
Asymmetry
Smooth border
Color variation
☐ Itching
Discuss the role of genetics in the development of moles.
•
At what diameter should a mole be checked by a dermatologist according to the ABCDE rule?
○ 2mm
○ 4mm
○ 6mm
○ 8mm
Which environmental factor significantly influences mole development?
Air pollution
Sun exposure Water quality
Water qualitySoil composition
O Soil Composition
What is the primary reason for monitoring moles regularly?

Create hundreds of practice and test experiences based on the latest learning science.

\bigcirc	To track skin hydration
\bigcirc	To prevent acne
\bigcirc	To detect potential melanoma
0	To improve skin texture
