**Which resource is most associated with the Middle East?**

- Timber
- Coal
- Oil
- Iron ore

**Which of the following is an example of an inexhaustible resource?**

- Natural gas
- Wind
- Timber
- Coal

**Which legislation is primarily aimed at protecting air quality?**

- Clean Water Act
- Endangered Species Act
- Clean Air Act
- Resource Conservation and Recovery Act

**What is a renewable resource?**

- A resource that cannot be replenished
- A resource that can be replenished naturally over time
- A resource that is always available
- A resource that is man-made

**What is the primary cause of climate change related to natural resources?**

- Overfishing
- Deforestation

- Fossil fuel consumption
- Water pollution

**Explain the difference between renewable and non-renewable resources.**

**Describe the concept of "sustainable use" of natural resources and provide an example.**

**Discuss the role of legislation in the conservation of natural resources.**

**Which factors contribute to resource scarcity? (Select all that apply)**

- Overpopulation
- Pollution
- Technological innovation
- Climate change

**Which of the following are considered renewable resources? (Select all that apply)**

- Solar energy
- Wind energy
- Oil
- Biomass

**How does the geographical distribution of resources affect global economies?**

**What are the environmental impacts of fossil fuel consumption?**

**Why is it important to develop alternative resources, and what are some examples?**

**Which of the following is considered a non-renewable resource?**

- Solar energy
- Wind energy
- Coal

- Biomass

**Which of the following are considered non-renewable resources? (Select all that apply)**

- Coal  
 Natural gas  
 Solar energy  
 Oil

**What is the primary goal of resource conservation?**

- To increase resource extraction  
 To ensure resources are used sustainably  
 To eliminate the use of non-renewable resources  
 To privatize natural resources

**What does the term "tragedy of the commons" refer to?**

- Sustainable resource management  
 Individual actions leading to resource depletion  
 Government regulation of resources  
 Renewable energy development

**What are some practices involved in resource conservation? (Select all that apply)**

- Recycling  
 Overfishing  
 Reforestation  
 Sustainable agriculture

**What are some technological advances that aid in sustainable resource management? (Select all that apply)**

- Fracking  
 Solar panels  
 Wind turbines  
 Deep-sea mining

**What are the impacts of overexploitation of natural resources? (Select all that apply)**

- Resource depletion

- Economic growth
- Environmental degradation
- Biological diversity loss
