**What is the primary characteristic of a plain?**

- High elevation
- Flat, expansive land
- Dense forests
- Steep slopes

**Which process is NOT involved in the formation of plains?**

- Erosion
- Sediment deposition
- Glacial activity
- Volcanic eruption

**Which of the following plains is known for its extensive grasslands and agriculture in North America?**

- Pampas
- Indo-Gangetic Plain
- Eurasian Steppe
- Great Plains

**Which animal is commonly associated with the Great Plains?**

- Kangaroo
- Elephant
- Penguin
- Bison

**Which plain is highly fertile and densely populated, crucial for agriculture in India?**

- Pampas

- Great Plains
- Eurasian Steppe
- Indo-Gangetic Plain

**What is a major economic activity commonly associated with plains?**

- Fishing
- Agriculture
- Logging
- SkiING

**What is a common climate characteristic of many plains?**

- Tropical
- Arctic
- Desert
- Temperate

**What factors contribute to the formation of plains? (Select all that apply)**

- Erosion
- Volcanic activity
- Glacial activity
- Sediment deposition

**Which of the following are notable plains around the world? (Select all that apply)**

- Sahara Desert
- Pampas
- Indo-Gangetic Plain
- Amazon Rainforest

**Explain how glacial activity can lead to the formation of plains.**

**Describe the role of sediment deposition in the development of coastal plains.**

**Discuss the impact of agriculture on the ecosystems of plains.**

**What are some cultural significances of plains to indigenous peoples?**

**How does climate change pose a threat to plains ecosystems?**

**Compare and contrast the Great Plains and the Pampas in terms of geography and economic activities.**

**Which ecosystems are typically found on plains? (Select all that apply)**

- Grasslands
- Coral reefs
- Dense forests
- Wildflower meadows

**Which of the following are types of plains? (Select all that apply)**

- Coastal Plains
- Mountainous Plains
- Erosional Plains
- Structural Plains

**What are some environmental issues affecting plains? (Select all that apply)**

- Soil degradation
- Overfishing
- Climate change impact
- Habitat loss

**Which type of plain is formed by sediment deposition along coastlines?**

- Erosional Plain
- Structural Plain
- Inundation Plain
- Coastal Plain

**Which activities are commonly found on plains due to their flat terrain? (Select all that apply)**

- SkiING
- Urbanization
- Mountain climbing
- Agriculture
