Which geological process is NOT responsible for the formation of plateaus?

- Erosion
- Volcanic activity
- Sedimentation
- tectonic uplift

Discuss the environmental challenges that plateaus face due to human activities.

What makes the Altiplano Plateau unique in terms of its ecological and cultural significance?

Reflect on the role of plateaus in supporting biodiversity and providing habitats for various species.

The Altiplano Plateau is located in which mountain range?

- Himalayas
- Andes
- Rockies
- Alps

What is the primary economic importance of plateaus?

- Tourism
- Mineral deposits
- Fishing
- Urban development

The Colorado Plateau is famous for which natural feature?

- Niagara Falls
- Grand Canyon
- Mount Everest
- Sahara Desert

Which of the following are examples of intermontane plateaus? (Select all that apply)

- Tibetan Plateau
- Colorado Plateau
- Deccan Plateau
- Altiplano Plateau

What is a plateau?

- A flat, elevated landform
- A type of mountain
- A low-lying valley

- A type of river delta

Which of the following is a characteristic of a plateau?

- Steep slopes
 Flat terrain
 High population density
 Dense forests

What are some common characteristics of plateaus? (Select all that apply)

- Elevated land
 Flat top
 Surrounded by mountains
 Low altitude

Explain how tectonic uplift contributes to the formation of plateaus.

Which of the following are types of plateaus? (Select all that apply)

- Intermontane Plateau
 Volcanic Plateau
 Oceanic Plateau
 Piedmont Plateau

Which type of plateau is formed primarily from lava flows?

- Intermontane Plateau
 Volcanic Plateau
 Piedmont Plateau
 Continental Plateau

Which continent is home to the Deccan Plateau?

- Africa
- Asia
- Europe
- South America

How do volcanic plateaus differ from other types of plateaus in terms of their formation and characteristics?

Which plateaus are known for their volcanic activity? (Select all that apply)

- Deccan Plateau
- Colorado Plateau
- Ethiopian Plateau
- Siberian Traps

Which factors contribute to the environmental challenges faced by plateaus? (Select all that apply)

- Deforestation
- Urbanization
- Climate change
- Overfishing

Describe the economic significance of the Deccan Plateau in India.

What are some of the ecological significances of plateaus? (Select all that apply)

- Biodiversity hotspots
- Unique ecosystems
- High agricultural productivity
- High population density
