**What is the primary focus of population geography?**

- A. Climate patterns
- B. Spatial distribution of populations ✓**
- C. Economic policies
- D. Political systems

**Describe the concept of carrying capacity and its relevance to population geography.**

**Carrying capacity refers to the maximum number of individuals an environment can sustainably support. It is crucial in population geography for understanding limits to growth and resource allocation.**

**Discuss the implications of a declining population in developed countries.**

**A declining population can lead to labor shortages, increased pressure on social welfare systems, and challenges in maintaining economic growth.**

**What does a population pyramid illustrate?**

- A. Economic growth
- B. Age and sex distribution ✓**
- C. Migration patterns
- D. Climate change effects

**What is a megacity?**

- A. A city with a population over 1 million
- B. A city with a population over 5 million
- C. A city with a population over 10 million ✓**

D. A city with a population over 20 million

**Which country implemented a one-child policy to control population growth?**

- A. India
- B. China ✓**
- C. Brazil
- D. Russia

**What are some effects of high population density in urban areas? (Select all that apply)**

- A. Improved air quality
- B. Increased housing demand ✓**
- C. Traffic congestion ✓**
- D. Greater access to services ✓**

**What are some impacts of an aging population? (Select all that apply)**

- A. Increased healthcare costs ✓**
- B. Higher birth rates
- C. Greater demand for pensions ✓**
- D. Decreased labor force ✓**

**Explain how Geographic Information Systems (GIS) are used in population geography.**

**GIS is used to collect, analyze, and visualize spatial data related to population distribution, density, and demographics, helping geographers understand patterns and trends.**

**How do push and pull factors influence migration patterns? Provide examples.**

**Push factors (e.g., conflict, natural disasters) drive people away from their home regions, while pull factors (e.g., job opportunities, political stability) attract them to new areas.**

**Analyze the potential social and economic impacts of rapid urbanization in developing countries.**

**Rapid urbanization can lead to overcrowding, inadequate infrastructure, increased poverty, and strain on resources, but also economic growth and improved access to services.**

**Predict how global population trends might affect environmental sustainability in the future.**

**Increasing populations may lead to resource depletion and environmental degradation, while declining populations could reduce pressure on ecosystems but challenge economic systems.**

**Which of the following are factors that influence population distribution? (Select all that apply)**

- A. Climate ✓**
- B. Economic opportunities ✓**
- C. Language
- D. Political stability ✓**

**Which demographic trend is characterized by a high birth rate and a declining death rate?**

- A. Population decline
- B. Population explosion ✓**
- C. Population stabilization
- D. Population inversion

**Which policies can be considered pro-natalist? (Select all that apply)**

- A. Tax incentives for families with children ✓**
- B. Access to free contraception
- C. Paid parental leave ✓**
- D. Restrictions on childbearing

**What is the term for the maximum population size that an environment can sustain?**

- A. Birth rate
- B. Death rate
- C. Carrying capacity ✓**
- D. Migration rate

**Which factors are considered when analyzing migration patterns? (Select all that apply)**

- A. Economic conditions ✓**
- B. Religious beliefs
- C. Political conflicts ✓**
- D. Cultural festivals

**Which of the following is a push factor in migration?**

- A. Job opportunities
- B. Political stability
- C. Natural disasters ✓**
- D. Cultural attractions

**What are some challenges associated with urbanization? (Select all that apply)**

- A. Increased pollution ✓**
- B. Improved rural economies
- C. Overcrowding ✓**
- D. Enhanced biodiversity

**Which factor is NOT typically considered when analyzing population density?**

- A. Birth rates
- B. Climate
- C. Economic activity
- D. Language diversity ✓**
