### What does topography primarily study?

- Climate patterns
- Landforms and physical features
- Population density
- Cultural landmarks

### Which technologies are used in modern topographic studies? (Select all that apply)

- GIS
- GPS
- MRI
- Drones

### Which of the following is a natural topographic feature?

- Highway
- Skyscraper
- Mountain
- Bridge

### How does topography influence agriculture?

- By determining crop prices
- By affecting soil and water management
- By predicting weather patterns
- By setting legal boundaries

### What do contour lines on a topographic map represent?

- Vegetation types
- Population density

- Elevation levels
- Weather patterns

**What information can you obtain from a topographic map? (Select all that apply)**

- Elevation
- Road networks
- Weather forecasts
- Land use

**In which field is topography NOT typically used?**

- Urban planning
- Medicine
- Agriculture
- Disaster management

**Which of the following are considered landforms? (Select all that apply)**

- River
- Valley
- Hill
- Building

**Explain the significance of topography in environmental management.**

**Describe the difference between a natural and an artificial topographic feature.**

**How do contour intervals on a map help in understanding the terrain?**

**Discuss the role of GIS in modern topographic analysis.**

**Provide an example of how topography can influence urban planning.**

**Reflect on a real-world scenario where topography played a critical role in disaster management.**

**Which features are typically found in a coastal topography? (Select all that apply)**

- Beaches
- Mountains
- Cliffs
- Deserts

**When did topographic mapping significantly advance due to technological innovations?**

- 18th century
- 19th century
- 20th century
- 21st century

**How is topography used in disaster management? (Select all that apply)**

- Flood control
- Disease prevention
- Landslide prediction
- Earthquake monitoring

**What is a plateau?**

- A low area between hills
- A flat elevated landform
- A narrow water channel
- A steep mountain

**What are potential future trends in topographic studies? (Select all that apply)**

- Increased use of AI
- Decline in map usage
- Enhanced 3D modeling

Manual surveying resurgence

**Which tool is commonly used for creating detailed topographic maps?**

- Thermometer
- Microscope
- GPS
- Stethoscope
