Which continent is the largest by land area?

- Africa
- Asia ✓**
- North America
- Europe

Asia is the largest continent by land area, covering approximately 44.58 million square kilometers. It is followed by Africa, which is the second largest continent.

What is the capital city of Australia?

- Sydney
- Melbourne
- Canberra ✓**
- Brisbane

The capital city of Australia is Canberra, which was selected as a compromise between the two largest cities, Sydney and Melbourne. It is located in the Australian Capital Territory (ACT).

Describe the impact of colonization on the current political boundaries in Africa.

- Positive impact
- Negative impact ✓**
- No impact
- Only economic impact

Answer: Colonization led to arbitrary borders that often ignored ethnic and cultural divisions, resulting in political instability and conflict.

What are the main factors contributing to the desertification of the Sahara Desert?

- Natural causes only
- Human activities ✓**
- No significant factors
- Only climate change

Answer: Overgrazing, deforestation, climate change, and unsustainable agricultural practices contribute to the desertification of the Sahara.

Discuss the role of the Himalayas in influencing the climate of the Indian subcontinent.

- No impact on climate
- Blocks cold winds ✓**
- Only affects rainfall
- Only important for tourism

Answer: The Himalayas block cold winds from Central Asia, resulting in a warmer climate in the Indian subcontinent and affecting monsoon patterns.

Which of the following countries is landlocked?

- Vietnam
- Switzerland ✓**
- Argentina
- Thailand

A landlocked country is one that is entirely surrounded by land and does not have any coastline or access to the ocean. Examples of landlocked countries include Switzerland, Austria, and Hungary.

Which countries are part of the United Kingdom? (Select all that apply)

- England ✓**
- Scotland ✓**
- Wales ✓**
- Ireland

The United Kingdom is made up of four countries: England, Scotland, Wales, and Northern Ireland. Each of these countries has its own distinct culture and identity, but they are united under a single government.

Which mountain range is the longest in the world?

- Andes** ✓
- Rockies
- Himalayas
- Alps

The Andes mountain range is the longest in the world, stretching over 7,000 kilometers along the western edge of South America. It runs through seven countries, including Venezuela, Colombia, Ecuador, Peru, Bolivia, Chile, and Argentina.

Which of the following are major climate zones? (Select all that apply)

- Tropical** ✓
- Arid** ✓
- Polar** ✓
- Temperate** ✓

Major climate zones include tropical, arid, temperate, polar, and continental climates. These zones are characterized by distinct temperature and precipitation patterns that influence the ecosystems and weather of different regions.

Which of the following seas are part of the Mediterranean Sea? (Select all that apply)

- Aegean Sea** ✓
- Red Sea
- Ionian Sea** ✓
- Adriatic Sea** ✓

The Mediterranean Sea is bordered by several smaller seas, including the Aegean Sea, the Ionian Sea, and the Tyrrhenian Sea. These seas are integral parts of the Mediterranean region and contribute to its unique maritime ecosystem.
