Part 1: Building a Foundation

What are character traits?

Hint: Think about how you would describe a person.

- A) Emotions a character feels
- B) Characteristics that describe what a person is like ✓
- C) The setting of a story
- D) The plot of a story

Character traits are characteristics that describe what a person is like.

Which of the following are examples of positive character traits?

Hint: Consider traits that are generally viewed as good.

- A) Honesty ✓
- B) Cruelty
- C) Kindness ✓
- D) ArrogANCE

Positive character traits include honesty and kindness.

Explain why understanding character traits is important in analyzing a story.

Hint: Think about how traits affect character decisions and plot.

Understanding character traits helps readers analyze motivations and conflicts in a story.

List two examples of negative character traits and two examples of positive character traits.

Hint: Think of traits that describe behavior.

1. Negative Trait 1

Greedy

2. Negative Trait 2

Jealous

3. Positive Trait 1

Generous

4. Positive Trait 2

Compassionate

Examples of negative traits include greed and jealousy; positive traits include generosity and compassion.

Part 2: Understanding and Interpretation

How can a reader identify a character's traits in a story?

Hint: Consider what you observe about the character.

- A) By looking at the book cover
- B) By observing the character's actions and dialogue ✓
- C) By counting the number of pages
- D) By ignoring the character's interactions

A reader can identify a character's traits by observing their actions and dialogue.

Which of the following methods can help identify character traits?

Hint: Think about how you can analyze a character.

- A) Analyzing the character's thoughts ✓
- B) ObservING how other characters perceive them ✓
- C) Ignoring the character's choices
- D) Reading the character's background ✓

Analyzing a character's thoughts and how others perceive them can help identify traits.

Describe how a character's traits can influence the plot of a story.

Hint: Consider how traits affect decisions and conflicts.

A character's traits can drive their decisions, leading to conflicts and resolutions that shape the plot.

Part 3: Application and Analysis

If a character is described as loyal, which action would best demonstrate this trait?

Hint: Think about what loyalty looks like in action.

- A) Betraying a friend
- B) Supporting a friend in need ✓
- C) Ignoring a friend's request
- D) Criticizing a friend publicly

Supporting a friend in need best demonstrates loyalty.

A character is known for their honesty. Which scenarios would challenge this trait?

Hint: Consider situations that test a person's honesty.

- A) Being offered a bribe ✓
- B) WitnessING a crime
- C) Telling a white lie to protect someone ✓
- D) Finding a lost wallet

Being offered a bribe and telling a white lie to protect someone challenge the trait of honesty.

Imagine a character who is both kind and ambitious. Describe a situation where these traits might conflict.

Hint: Think about how ambition can sometimes clash with kindness.

A kind and ambitious character might face a conflict when their ambition requires them to make tough decisions that hurt others.

Part 4: Evaluation and Creation

What is the difference between static and dynamic character traits?

Hint: Consider how traits change over time.

- A) Static traits change, dynamic traits remain the same
- B) **Static traits remain the same, dynamic traits change ✓**
- C) Both static and dynamic traits change
- D) Neither static nor dynamic traits change

Static traits remain the same, while dynamic traits change throughout the story.

Which of the following characters are likely to have dynamic traits?

Hint: Think about characters who undergo change.

- A) **A character who learns from their mistakes ✓**
- B) A character who remains stubborn throughout
- C) **A character who experiences significant growth ✓**
- D) A character who is unaffected by events

Characters who learn from their mistakes or experience significant growth are likely to have dynamic traits.

Analyze how a character's static traits might impact their relationships with other characters in a story.

Hint: Consider how unchanging traits affect interactions.

Static traits can lead to predictable behaviors that may either strengthen or weaken relationships with other characters.

Which character trait is most likely to lead to a positive resolution in a conflict?

Hint: Think about traits that promote understanding.

- A) ArrogANCE
- B) Empathy ✓
- C) Dishonesty
- D) Indifference

Empathy is most likely to lead to a positive resolution in a conflict.

Evaluate the impact of a character's negative traits on a story's outcome. Which of the following are possible effects?

Hint: Consider how negative traits can shape the narrative.

- A) Increased tension and conflict ✓
- B) Resolution of the story's main problem
- C) Alienation from other characters ✓
- D) Strengthening of relationships

Negative traits can lead to increased tension, conflict, and alienation from other characters.

Create a brief character sketch of a protagonist who undergoes significant change throughout a story. Describe their initial traits and how they evolve by the end.

Hint: Think about how a character's journey can reflect their growth.

The character sketch should detail the protagonist's initial traits and how they change due to experiences in the story.
