Part 1: Building a Foundation

Which of the following is a common symbol of the fall season?

Hint: Think about what represents fall in decorations and festivals.

- Sunflower
- Snowflake
- Pumpkin ✓
- Cherry Blossom

■ The common symbol of the fall season is a pumpkin.

Select all the events typically associated with the fall season.

Hint: Consider holidays and celebrations that occur in the fall.

- Thanksgiving ✓
- Easter
- Halloween ✓
- Independence Day

■ Thanksgiving and Halloween are events typically associated with fall.

Describe what happens to the leaves of deciduous trees during the fall season.

Hint: Think about color changes and leaf drop.

During fall, leaves change color due to decreased chlorophyll and eventually fall off the trees.

List two common weather changes that occur during the fall season.

Hint: Consider temperature and precipitation changes.

1. First weather change

Cooler temperatures

2. Second weather change

Increased rainfall

Common weather changes in fall include cooler temperatures and increased rainfall.

What is the primary reason leaves change color in the fall?

Hint: Consider the role of chlorophyll in leaves.

- Increased sunlight
- Decreased chlorophyll production ✓
- Higher temperatures
- More rainfall

The primary reason leaves change color is due to decreased chlorophyll production.

Part 2: Comprehension and Application

Which of the following best explains why animals prepare for winter during the fall?

Hint: Think about food availability and environmental changes.

- They enjoy the cooler weather.
- Food becomes more abundant.
- Days become shorter and food becomes scarce. ✓**
- They migrate for fun.

■ Animals prepare for winter during fall primarily because days become shorter and food becomes scarce.

Which of the following activities are typically part of fall harvest festivals?

Hint: Consider seasonal activities that celebrate the harvest.

- Apple picking ✓**
- Snowball fights
- Corn mazes ✓**
- Beach volleyball

■ Activities like apple picking and corn mazes are typically part of fall harvest festivals.

Propose a science experiment that demonstrates the process of leaves changing color in the fall.

Hint: Think about how you can visually show the color change.

■ **A possible experiment could involve placing leaves in different light conditions to observe color changes.**

Suggest two art projects that could help students explore the colors of fall and briefly describe each.

Hint: Consider projects that involve natural materials or color mixing.

1. First art project

| Leaf rubbing - using crayons to create textures from leaves.

2. Second art project

| Fall color collage - collecting leaves and arranging them by color.

| Art projects could include leaf rubbing and creating a fall color collage.

Part 3: Analysis, Evaluation, and Creation

Which factor most directly influences the timing of leaf color change in different regions?

Hint: Consider environmental factors that affect trees.

- Soil type
- Altitude ✓**
- Wind speed
- Ocean currents

| Altitude most directly influences the timing of leaf color change in different regions.

Analyze the relationship between fall weather patterns and animal behavior. Which of the following are true?

Hint: Think about how animals adapt to seasonal changes.

- Animals migrate to warmer areas. ✓**
- Animals begin hibernation. ✓**
- Animals shed their fur.
- Animals increase food storage. ✓**

True statements include that animals migrate to warmer areas, begin hibernation, and increase food storage.

Imagine you are tasked with creating a new fall festival. Describe the theme, activities, and educational components you would include to engage the community.

Hint: Think about what would attract people to the festival.

The festival could have a harvest theme with activities like pumpkin carving and educational workshops on local agriculture.

Evaluate two potential challenges of organizing a fall-themed educational event and propose solutions for each.

Hint: Consider logistical and community engagement challenges.

1. First challenge

Weather unpredictability - solution: have indoor options.

2. Second challenge

Low community participation - solution: promote through local channels.

Challenges could include weather unpredictability and low community participation, with solutions like having indoor options and promoting the event through local channels.
