Part 1: Building a Foundation

What is the first level of Maslow's Hierarchy of Needs?

Hint: Think about the most basic human requirements.

- A) Safety Needs
- B) Self-Esteem Needs
- C) Physiological Needs ✓
- D) Love and Belongin Needs

■ The first level is Physiological Needs.

Which of the following are considered physiological needs according to Maslow?

Hint: Identify the basic needs for survival.

- A) Food ✓
- B) Friendship
- C) Water ✓
- D) Security

■ Physiological needs include food and water.

Explain why physiological needs are considered the foundation of Maslow's Hierarchy of Needs.

Hint: Consider the role of basic survival in human motivation.

Physiological needs are essential for survival and must be met before higher-level needs can be addressed.

List the five levels of Maslow's Hierarchy of Needs in order from the most basic to the highest level.

Hint: Think about the pyramid structure of needs.

1. 1st Level

Physiological Needs

2. 2nd Level

Safety Needs

3. 3rd Level

Love and Belonginess

4. 4th Level

Self-Esteem Needs

5. 5th Level

Self-Actualization

The five levels are: Physiological, Safety, Love and Belonginess, Esteem, and Self-Actualization.

Which need becomes a priority after physiological needs are satisfied?

Hint: Think about the next level of needs in the hierarchy.

- A) Self-Actualization
- B) Safety Needs ✓
- C) Love and Belonginess
- D) Self-Esteem Needs

Safety Needs become a priority after physiological needs.

Part 2: Understanding and Application

How do safety needs differ from physiological needs?

Hint: Consider the nature of each type of need.

- A) Safety needs are more about emotional security. ✓
- B) Safety needs are about basic survival.
- C) Safety needs include the need for food and water.
- D) Safety needs are not part of Maslow's hierarchy.

Safety needs focus on security and protection, while physiological needs are about basic survival.

Describe how love and belonging needs influence human behavior in social settings.

Hint: Think about the role of relationships in motivation.

Love and belonging needs drive individuals to seek connections and relationships, influencing their social interactions.

Which of the following actions would most likely help an individual achieve self-actualization?

Hint: Consider activities that promote personal growth.

- A) Earning a promotion at work
- B) Building strong friendships
- C) Pursuing a personal passion or hobby ✓
- D) Saving money for future security

Pursuing a personal passion or hobby is most likely to lead to self-actualization.

Provide an example of how an employer might address employees' safety needs in the workplace.

Hint: Think about policies or practices that ensure safety.

Employers can address safety needs by implementing health and safety protocols, providing secure work environments, and offering employee assistance programs.

Part 3: Analysis, Evaluation, and Creation

Analyze how unmet safety needs might impact an individual's ability to focus on self-esteem needs.

Hint: Consider the relationship between different levels of needs.

When safety needs are unmet, individuals may experience anxiety and stress, hindering their ability to pursue self-esteem needs.

Which of the following scenarios best illustrates the interdependence of love and belonging needs with self-esteem needs?

Hint: Think about how relationships can affect self-worth.

- A) A person feels confident after receiving a promotion.
- B) A student excels academically due to a supportive peer group. ✓**
- C) An athlete trains alone to improve performance.
- D) An employee works overtime to secure a bonus.

A supportive peer group can enhance self-esteem, illustrating the connection between love and belonging needs and self-esteem needs.

Evaluate the effectiveness of Maslow's Hierarchy of Needs in explaining human motivation in modern society. Provide examples to support your argument.

Hint: Consider how the hierarchy applies to contemporary issues.

Maslow's Hierarchy remains relevant in understanding motivation, as it highlights the importance of fulfilling basic needs before higher-level aspirations.

Which of the following criticisms are often directed at Maslow's Hierarchy of Needs?

Hint: Think about the limitations of the model.

- A) It is too rigid and linear. ✓**
- B) It does not account for cultural differences. ✓**
- C) It is universally applicable without exceptions.
- D) It lacks empirical support.

| Critics argue that the hierarchy is too rigid and does not account for cultural differences.

Design a program or initiative that addresses all levels of Maslow's Hierarchy of Needs for a community group of your choice. Describe how each level will be fulfilled.

Hint: Think about a comprehensive approach to community support.

| **A well-designed program would include initiatives for basic needs, safety, social connections, esteem-building activities, and opportunities for self-actualization.**
