**Balance Sheet Columns**

---

Typically, the columns include Trial Balance, Adjustments, Income Statement, and Balance Sheet columns.

## Part 2: Comprehension and Application

---

**How does the adjusted trial balance differ from the initial trial balance?**

*Hint: Consider what adjustments imply.*

- A) It includes only revenue accounts
- B) It reflects balances after adjustments ✓
- C) It excludes expense accounts
- D) It is prepared before adjustments

The adjusted trial balance reflects balances after adjustments have been made.

**Which statements are true about the role of a Neraca Lajur Worksheet in financial reporting? (Select all that apply)**

*Hint: Think about the functions of the worksheet.*

- A) It ensures all necessary adjustments are made ✓
- B) It replaces the need for a balance sheet
- C) It helps detect errors before finalizing financial statements ✓
- D) It is used for tax filing purposes

The Neraca Lajur Worksheet ensures all necessary adjustments are made and helps detect errors before finalizing financial statements.

**Provide an example of an adjustment entry that might be made in a Neraca Lajur Worksheet and explain its impact.**

*Hint: Consider common adjustments in accounting.*

An example of an adjustment entry is recording accrued expenses, which impacts the expense and liability accounts, ensuring accurate financial reporting.

If a company discovers an unrecorded expense at the end of the period, where should this be reflected in the Neraca Lajur Worksheet?

Hint: Think about where adjustments are recorded.

- A) Trial Balance
- B) Adjustments ✓
- C) Income Statement Columns
- D) Balance Sheet Columns

This should be reflected in the Adjustments section of the Neraca Lajur Worksheet.

### Part 3: Analysis, Evaluation, and Creation

---

Which of the following scenarios would most likely indicate an error in the Neraca Lajur Worksheet?

Hint: Consider what discrepancies might suggest mistakes.

- A) The adjusted trial balance matches the trial balance
- B) The income statement columns show a net loss
- C) The balance sheet columns do not balance ✓
- D) Adjustments are made for accrued expenses

The scenario where the balance sheet columns do not balance would most likely indicate an error in the Neraca Lajur Worksheet.

When analyzing a Neraca Lajur Worksheet, what could cause discrepancies between the trial balance and adjusted trial balance? (Select all that apply)

Hint: Think about common errors in accounting.

- A) Missing adjustment entries ✓
- B) Incorrect ledger balances ✓
- C) Transposition errors ✓
- D) Accurate recording of all transactions

Discrepancies could be caused by missing adjustment entries, incorrect ledger balances, or transposition errors.
