Part 1: Building a Foundation

Which of the following is a symbol of spring?

Hint: Think about what represents the season.

- A) Snowflakes
- C) Flowers ✓
- D) Sandcastles
- C) Pumpkins

■ The correct answer is C) Flowers, as they are commonly associated with spring.

Which animals are commonly associated with spring? (Choose all that apply)

Hint: Consider baby animals and those that are active in spring.

- A) Chicks ✓
- C) Lambs ✓
- D) Penguins
- C) Bears

■ The correct answers are A) Chicks, C) Lambs, as they are commonly seen in spring.

Name two types of flowers that bloom in spring.

Hint: Think of flowers you see in gardens or parks.

Expected answers include any two spring flowers such as tulips and daffodils.

List three characteristics of spring.

Hint: Think about the weather, plants, and animals.

1. Characteristic 1

Warmer weather

2. Characteristic 2

Bloom of flowers

3. Characteristic 3

Animals becoming active

Expected characteristics include warmer weather, blooming flowers, and animals becoming active.

Part 2: Understanding and Interpretation

Why do flowers bloom in spring?

Hint: Consider the environmental changes that occur.

- A) Because it is colder
- C) Because it is snowING
- D) Because animals are hibernating
- C) Because there is more sunlight and rain ✓**

■ The correct answer is B) Because there is more sunlight and rain, which helps flowers grow.

What changes in the environment can you observe during spring? (Choose all that apply)

Hint: Think about the weather and nature.

- A) Leaves falling from trees
- C) Longer daylight hours ✓**
- D) Warmer temperatures ✓**
- C) More rain showers ✓**

■ The correct answers are B) Longer daylight hours, C) Warmer temperatures, and D) More rain showers.

Explain why spring is an important season for plant growth.

Hint: Consider the conditions that help plants thrive.

■ **Spring provides essential sunlight and rain, which are crucial for plant growth.**

Part 3: Application and Analysis

If you wanted to plant a garden in spring, which of the following would you need to do first?

Hint: Think about the steps involved in gardening.

- A) Harvest the crops
- C) Prepare the soil ✓**

- D) Pick the flowers
- C) Water the plants

■ The correct answer is C) Prepare the soil, as it is the first step in gardening.

You are planning a spring picnic. Which items should you bring to enjoy the spring weather? (Choose all that apply)

Hint: Consider what you might need for a picnic.

- A) Umbrella ✓
- C) Winter coat
- D) Picnic blanket ✓
- C) Sunglasses ✓

■ The correct answers are A) Umbrella, B) Sunglasses, and D) Picnic blanket.

Describe a simple experiment you could do to observe how plants grow in spring.

Hint: Think about what you can measure or observe.

■ Expected answers may include growing seeds in different conditions and observing their growth.

What is the relationship between rain and plant growth in spring?

Hint: Consider how water affects plants.

- A) Rain prevents plants from growing
- C) Rain washes away plants
- D) Rain has no effect on plants
- B) Rain provides water that helps plants grow ✓

■ The correct answer is B) Rain provides water that helps plants grow.

How do animals adapt to the changes in spring? (Choose all that apply)

Hint: Think about animal behaviors and changes.

- A) Birds migrate to warmer areas ✓**
