### Part 1: Building a Foundation

---

**What is the Spanish word for "rain"?**

*Hint: Think about common weather terms in Spanish.*

- Sol
- Lluvia ✓
- Nieve
- Viento

■ The correct answer is 'Lluvia', which means rain in Spanish.

**Which of the following are adjectives used to describe weather in Spanish?**

*Hint: Consider common adjectives that relate to weather.*

- Soleado ✓
- Nublado ✓
- Frío ✓
- Cálido ✓

■ The correct answers are 'Soleado', 'Nublado', 'Frío', and 'Cálido', as they all describe weather conditions.

**Describe what the phrase "Hace buen tiempo" means in English.**

*Hint: Think about the general weather conditions.*

**| The phrase means 'The weather is nice' or 'It's good weather'.**

**List two weather phenomena in Spanish and their English translations.**

*Hint: Think of common weather events.*

1. What is the Spanish word for 'storm'?

**| Tormenta**

2. What is the English translation of 'huracán'?

**| Hurricane**

**| Examples include 'tormenta' (storm) and 'huracán' (hurricane).**

## **Part 2: Understanding and Interpretation**

---

**What question would you ask in Spanish to inquire about the weather?**

*Hint: Think about how you would ask someone about the weather.*

- ¿Dónde está el sol?
- ¿Qué tiempo hace? ✓**
- ¿Cuándo es la lluvia?
- ¿Por qué hace frío?

The correct question is '¿Qué tiempo hace?', which means 'What is the weather like?'.

**Which of the following phrases correctly describe a sunny day in Spanish?**

*Hint: Consider phrases that indicate sunny weather.*

- Está nublado
- Hace sol** ✓
- Está lloviendo
- Hace calor** ✓

The correct phrases are 'Hace sol' and 'Hace calor', which describe sunny weather.

**Explain how the geography of a region can influence its weather patterns, using examples from Spanish-speaking countries.**

*Hint: Think about mountains, oceans, and climate zones.*

**Geography affects weather; for example, coastal areas may have milder weather, while mountainous regions can have varied climates.**

### Part 3: Application and Analysis

---

**If you are planning a trip to a tropical Spanish-speaking country, which weather condition should you prepare for?**

*Hint: Consider the typical weather in tropical regions.*

- Snow
- Rain** ✓
- Desert heat
- Mild spring

You should prepare for 'Rain', as tropical regions often experience heavy rainfall.

**Which of the following activities would be suitable during "tiempo soleado"?**

*Hint: Think about outdoor activities that are enjoyable in sunny weather.*

- Going to the beach** ✓
- Ski-ing
- Hiking** ✓
- Building a snowman

Suitable activities include 'Going to the beach' and 'Hiking', as they are typically enjoyed in sunny weather.

**Describe how you would dress for a day described as "Hace frío y está nevando" in Spanish.**

*Hint: Think about clothing suitable for cold and snowy weather.*

You would wear warm clothing such as a coat, gloves, and boots for cold and snowy weather.

**Which climate zone is most likely to experience "tormentas" frequently?**

*Hint: Consider the characteristics of different climate zones.*

- Desert
- Tropical** ✓
- Mediterranean
- Polar

The 'Tropical' climate zone is most likely to experience frequent storms.

**How do cultural events in Spanish-speaking countries reflect their typical weather patterns?**

*Hint: Think about how weather influences festivals and celebrations.*

- Festivals during the dry season ✓
- Celebrations indoors during hurricanes ✓
- Outdoor events in mild weather ✓
- Snow festivals in tropical regions

Cultural events often align with weather patterns, such as festivals during the dry season or outdoor events in mild weather.

**Analyze how the phrase "Está lloviendo a cántaros" reflects cultural attitudes towards heavy rain in Spanish-speaking regions.**

*Hint: Consider the implications of heavy rain in daily life.*

The phrase suggests a cultural acceptance of heavy rain, often viewed as a natural part of life in many regions.

## Part 4: Evaluation and Creation

---

**Which of the following best evaluates the impact of climate change on weather patterns in Spanish-speaking countries?**

*Hint: Think about the effects of climate change on weather.*

- No impact
- Increased rainfall and storms ✓
- Decreased temperatures
- More predictable weather

The correct answer is 'Increased rainfall and storms', as climate change is leading to more extreme weather events.

**Propose solutions for adapting to changing weather patterns in Spanish-speaking regions.**

*Hint: Think about practical measures that can be taken.*

- Building flood defenses ✓**
- Develop-ing drought-resistant crops ✓**
- Increasing air conditioning use
- Promoting water conservation ✓**

Solutions include building flood defenses and developing drought-resistant crops to adapt to changing weather.

**Create a short weather forecast in Spanish for a day in your city, incorporating vocabulary and phrases learned.**

*Hint: Use the vocabulary related to weather conditions.*

**The forecast should include terms like 'sol', 'lluvia', and 'frío' to describe the weather.**
